Dear Dr. Lederberg:

Many thanks for your note of August 1 in which you mention Dr. Ruth Sager for consideration for our position as a Microbial Biochemist. The qualifications of Dr. Sager will be carefully considered in our quest for the most promising individual to fill this position.

I understand that arrangements have been made to bring the Lewins to La Jolla for a few days this fall. This visit may produce some interesting developments. Your interest in our problems is deeply appreciated.

With kindest regards,

Sincerely yours,

Claude E. ZoBell
Professor of Microbiology
